

MANAGING YOUR FINANCIAL RISK IS WHAT WE DO.

Automotive electronics costs will continue to increase dramatically over the years. By 2030, it's estimated to make up 50% of the total vehicle production cost.

<https://www.statista.com/statistics/277931/automotive-electronics-cost-as-a-share-of-total-car-cost-worldwide/>
Data accurate as of 2018

Automotive electronics cost as a percentage of total car cost worldwide from 1950 to 2030

Help protect your monthly budget and your vehicle's technology by planning ahead of time and incorporating Advanced Technology Protection into your monthly payment.

ADVANCED TECHNOLOGY PROTECTION

Coverage for:

- DVD Players
- Audio system, including radio/CD players and amplifiers
- Video and gaming system
- Navigation system
- Forward, backup, and 360 degree camera system
- Parking assist system
- Touch/display screens
- Bluetooth components
- Lane departure warning system
- Blind spot detection system
- WiFi data connections
- USB ports
- Accessory power point connections
- Homelink system

Many automotive sensors perform critical tasks that directly affect the safety on the road such as lane departure warning systems and blind spot detection systems. Others allow for the comforts and convenience of home such as hi-tech touch screens, Bluetooth components, Wi-Fi data connections, video gaming systems and audio systems.

Without a protection plan, repairs for electronic components could cost as much as an engine or transmission. Does that fit into your budget? Chances are it does not. Help protect your monthly budget and your vehicle's technology by planning ahead and choosing Advanced Technology Protection today.
